

become a business partner

becoming a business partner of support telecom offers an unrivalled opportunity, with unlimited earning potential.

working closely with your account manager, you will be able to develop a network of customers and organisations that are also focused on driving down their telephony costs.

this results in the development of a secure ongoing revenue stream for you, and significantly reduced phone bills for your customers.

- a unique and innovative plan
- reduce your phone bill to zero
- make referrals, gain discounts
- unlimited revenue stream opportunity
- supporting charities

how it works

our aim is to reduce our customers' phone bills to zero, whilst creating an on-going revenue stream by giving discounts on call charges, based on referrals.

as you introduce us to your supporters and suppliers we will endeavour to reduce their telephone bills and give them genuine commercial savings also.

in fact, the referral plan was originally devised for st. luke's hospice, with the intention of being able to support the charity financially by taking away the cost of making phone calls, providing a revenue scheme thus freeing up funds to be spent on patient care.

we know that the quality of service and reliability of providers is paramount to our customers therefore we only use the very best tier one networks to carry your calls. we also add a wide range of other benefits along the way, including:

- free phone calls
- on-going revenue stream
- online and itemised billing
- telephone system audits
- free non-geographic numbers
- seamless transfer
- number retention

“ support telecom are a great partner of st luke's.

the arrangement we have with them is currently reducing our phone bill all the time and we cannot thank them enough for their help and support.

the service they provide for us is excellent and it's a pleasure to recommend them to other organisations.

chris cox, st luke's hospice

”

referrals > zero bill > revenue share
